REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

None of prior art teaches an apparatus and a method for suppressing feedback between an acoustic output of an electrical/acoustical output converter arrangement and an acoustic input of an acoustical/electrical input converter arrangement of a hearing device, as specifically claimed in claims 1 and 12, wherein the method comprises the steps of converting acoustic signals impinging on the input converter arrangement into a first electric signal by a controllably variable transfer characteristic, which is dependent on an angle at which the acoustic signals impinge on the input converter arrangement; processing the first electric signal and applying a resulting signal to the output converter arrangement, and compensating the feedback to be suppressed by a feedback compensating signal, which is generated in dependency of the resulting signal and is fed back by a feedback signal path upstream the processing, and wherein the method further comprises the feedback compensating signal that is fed back to and superimposed upon the first electric signal, and adaptation rate of the converting to variations of the transfer characteristics that is controlled in dependency of the loop gain along the feedback signal path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kates (U.S. patent 6,498,858) teaches the apparatus and methods for canceling feedback in audio systems.

Williamson et al. (U.S. patent 5,091,952) teach feedback suppression in digital signal processing hearing aids.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HUYEN D. LE whose telephone number is (571) 272-7502. The examiner can normally be reached on 9:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, SINH TRAN can be reached on (571) 272-7564. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
